1.0 System Overview

The Joint Total Asset Visibility (JTAV)/Global Combat and Control System (GCCS) Interface Client Application Software, Version 1.0.0.1 provides the functionality described in section 2.2, Software Changes. The JTAV/GCCS Interface Client Application Software, Version 1.0.0.1 was developed to run with Unified Build, Version 2.1.3.5, in GCCS 2.1. This software should be used in conjunction with the JTAV/GCCS Interface Server Application Software, Version 1.0.0.0 loaded on the JTAV Oracle Server.

2.0 Version Description

The following subsections describe the JTAV/GCCS Interface Client Application Software, Version 1.0.0.1:

2.1 Inventory of Materials Released

The following physical media and associated documentation make up the JTAV/GCCS Interface Client Application Software, Version 1.0.0.1:

- JTAV/GCCS Interface Client Application Software, Version 1.0.0.1 for Unified Build 2.1.3.5 tape.

- *Version Description Document (VDD) for the Joint Total Asset Visibility (JTAV)/Global Combat and Control System (GCCS) Interface Client Application Software, Version 1.0.0.1 for Unified Build 2.1.3.5.*

2.2 Software Changes

The following functionality is available via the JTAV/GCCS Interface Client Application Software, Version 1.0.0.1:

- Developed new Mdx decoder to create JUNIT-type tracks in UB, when data is received via Mdx from special JTAV/GCCS interface software operating on a JTAV Oracle server. Created new editor to display JTAV track data when the tracks are edited.

3.0 Installation Instructions

The JTAV/GCCS Interface Client Application Software, Version 1.0.0.1 is in standard GCCS segment format. For instructions on installing GCCS segments, see the *Joint Total Asset Visibility (JTAV)/Global Command and Control System (GCCS) Interface User's Guide* and the *Unified Build 3.0.1.6G System Administrator's Guide*, Segment Installer.

Note: This segment must be installed at the site responsible for decoding tracks from the JTAV Oracle Server, and at any GCCS site requiring the JTAV track editor window to view the tracks.
